

SUBARU

CROSSTREK

Adventure-Ready Anytime, Anywhere.

Embark on a journey in the Subaru Crosstrek where every road leads to excitement and every path is an adventure.

Powered by Subaru's robust 2.0L e-BOXER petrol engine and with permanent Symmetrical All-Wheel Drive, this hybrid SUV is not just a mode of transportation; it's a companion that can handle any terrain, conquer any weather, and turn every drive into a captivating experience.

ADVENTURE AWAITS. SPACE GUARANTEED.

Load up, buckle in, and set off on your family adventures with ease. The Crosstrek is designed to accommodate your active lifestyle, making it effortless to pack up all your family's gear and hit the road, turning every outing into a memorable experience.

Whether it's outdoor sports, hobbies, or spontaneous weekend getaways, the Crosstrek ensures you never have to leave anything behind. With generous storage capacity, you can easily pack all your equipment and baggage, allowing you to fully embrace the spirit of adventure.

Rear Gate Trim / Side Sill Plate

The rear gate trim and rear door side sill plates feature a non-slip, scratch-resistant texture with a mountain range motif design that connect seamlessly to create a harmonious and playful atmosphere that's also functional. Plus, the expanded side sill plates provide convenient access to the integrated roof rails for anyone.

60/40-split Folding Rear Seats

The wider opening and 60 / 40-split folding rear seats make loading and unloading large items even more convenient.

STAY CONNECTED, STAY IN CONTROL.

Discover a new level of connectivity and control inside the new Crosstrek with a completely redesigned next-generation infotainment system. Touch, swipe or drag to navigate the large, intuitive 11.6" infotainment touchscreen, or simply use your voice. Bring up maps*1, find contacts, send messages, select driving modes, and access compatible apps, news, music, podcasts and more.

- *1 Compatible Apple™ or Android™ device with GPS navigation app required.
- *2 Driver is responsible for safe driving. Please refrain from operating touchscreen whilst driving.
- *3 Availability and compatibility of wireless connectivity may vary depending on market specifications and the type of mobile phone or device used. Qi wireless charging may not be compatible with all mobile phones.

11.6" FULL HD VERTICAL DISPLAY

Enjoy intuitive, smartphone-like operation for audio and other useful functions with the large 11.6" touchscreen display. It also supports a wide range of infotainment features such as Apple CarPlay™ and Android Auto™*2

WIRELESS CHARGER*3

Charge your smartphone or other Qi compatible electronic devices. Placed in the instrument panel centre tray that's easy to access, it provides up to 10W of power for rapid charging.

ADVANCED, SPACIOUS, AND COMFORTABLE.

With a completely re-imagined cabin interior, new Crosstrek has been carefully crafted to ensure you and your family travel in first-class comfort, making every journey an experience to remember. Long journeys are no longer a test of endurance. The quiet, smooth, and comfortable ride of the Crosstrek ensures that everyone arrives at their destination refreshed and ready to seize the day.

POWER-SLIDING, TILT-ADJUSTABLE SUNROOF*

In fine weather, it's easy to connect with the great outdoors. The inner-sliding sunroof quickly opens to allow daylight to flood into the cabin in seconds.

*Available on Touring models only.

REAR SEAT CENTRE ARMREST

The interior of the Crosstrek offers comfort for all passengers, with cup holders in the rear seat centre armrest.

WHERE PERFORMANCE MEETS TRUST, EVERY STEP OF THE WAY.

With the new Crosstrek, your sense of adventure knows no bounds. Whether you're navigating city streets or conquering country roads, the Crosstrek is your key to unlocking a world of excitement and exploration. Equipped with permanent Symmetrical All-Wheel Drive, improved X-MODE and impressive high ground clearance as standard, you can enjoy a smooth and controlled ride in all conditions.

DUAL FUNCTION X-MODE WITH HILL DESCENT CONTROL

Steep, wet or slippery terrain is no match for Crosstrek. Newly evolved X-MODE provides reliable control. Using the 11.6" touchscreen, switch between [SNOW / DIRT] mode to confidently negotiate snow, dirt, or gravel, or [D.SNOW / MUD] mode for soft conditions where lesser vehicles get stuck. When X-MODE is activated, Hill Descent Control automatically maintains a constant speed when travelling downhill: all you have to do is steer.

DUAL FUNCTION X-MODE WITH HILL DESCENT CONTROL

At the press of a button, Subaru Intelligent Drive (SI-DRIVE) lets you adjust the throttle and gear-shifting response to give you immediate power and agility on demand. Select Sport Mode for instant throttle response, ideal for enjoying winding roads, or Intelligent Mode for more fuel-efficient power delivery around town or on long journeys.

CLEARANCE BY DESIGN

Crosstrek is engineered to drive on or off-road and overcome tough terrain. The high 220mm ground clearance maximises approach, departure and ramp angles, minimising the risk of the bumpers or chassis getting damaged or stuck.

SUBARU
CORE TECHNOLOGY

The Subaru Difference

Subaru's core technologies define what makes a Subaru a Subaru - and the unique driving experience that only our vehicles can provide. These core systems enable Subaru vehicles to live up to the brand's exceptional standards of performance, comfort, safety, and reliability. They also underpin Subaru's promise to deliver both driving enjoyment and peace of mind to every passenger.

01

02

01 Lineartronic + Active Torque Split AWD

Lineartronic ensures seamless, stepless gear changes by adjusting to any ratio within its range, keeping the engine in its optimal zone for smooth acceleration, enhanced driving performance, and improved fuel efficiency. Paired with Subaru's Active Torque Split AWD system, it provides a balanced front-to-rear torque distribution, automatically adjusting to real-time traction conditions for superior stability and control.

02 Subaru Boxer Engine

The horizontally-opposed configuration of the Subaru Boxer engine places pistons 180 degrees apart for a lower, flatter profile than other engine types, giving the whole car a low centre of gravity. One of the main benefits of this configuration is that the pistons' movements naturally counteract each other, helping to reduce vibration and noise, delivering a smoother driving experience.

03

04

03 Subaru Global Platform

The enhanced Subaru Global Platform, combined with Symmetrical All-Wheel Drive, brings the latest technology to ensure every passenger enjoys greater comfort and peace of mind. With significantly improved driving dynamics, the all-new Forester delivers a smoother, more engaging driving experience.

04 Full Inner Frame Structure

A full inner frame construction and wider structural adhesive use help reduce sudden body movements while driving. A unified feel of steering and vehicle movement provide better driving dynamics and stability on any road.

05 Subaru e-BOXER

For efficient driving, the Subaru e-BOXER system adjusts the power-split ratio between the dedicated 2.0-litre direct-injection engine and the electric motor to match the driving conditions. When paired with Lineartronic, the result is quiet, smooth, powerful performance - and a rewarding drive.

06 Driver Monitoring System

Driver Monitoring System is a state-of-the-art safety support system that utilises a dedicated camera and facial recognition software to monitor fatigue or lack of attention. It recognises up to five pre-registered drivers to provide customised driver settings for a comfortable, convenient, and personalised driving experience.

07 Perfectly-balanced Configuration

The design, shape and position of the Boxer engine results in the car having a very balanced weight distribution. This contributes to the car's excellent handling and offers increased stability compared to V or transverse engine types.

05

06

07

WIDE-ANGLE MONOCULAR CAMERA
 Subaru's latest EyeSight*¹ technology, now featuring a wide-angle monocular camera, takes safety to the next level. By significantly expanding the detection range with front radar, it enhances protection for pedestrians and cyclists, providing even greater confidence on every journey.

Advanced Safety for Every Journey

When your car gives you peace of mind, life becomes more enjoyable. That's why the all-new Forester prioritises your safety on every journey with EyeSight*¹ technology and enhancements to the Subaru Global Platform. Plus, the newly added Emergency Driving Stop System helps keep you well-protected and confident behind the wheel, detecting and responding to potential driver-related issues.

*¹ EyeSight is a driving support system which may not operate optimally under all driving conditions or for all objects. The driver is always responsible for safe and attentive driving and observance of traffic regulations. See Owner's Manual for complete details on system operation and limitations for EyeSight including functions in this brochure.

*² The driver is always responsible for safe and attentive driving and observance of traffic regulations. Please do not depend solely on these safety features for safe driving. There are limitations to the recognition features of these system. See Owner's Manual for complete details on system operation and limitations.

PRIMARY

Outstanding visibility, optimal driving position, and intuitive controls help keep you safe from the moment you enter your vehicle.

PREVENTIVE

Advanced safety technologies such as EyeSight*¹, Rear Vehicle Detection*² and High Beam Assist helps avoid collisions before they happen.

ACTIVE

Core technologies like Symmetrical AWD and Subaru Global Platform help refine all the basic functions of a car - driving, turning, and braking.

PASSIVE

Designed to keep passengers safe in the event of a collision with features like the cabin-protecting engine layout, Ring-Shaped Reinforcement Framed body, and SRS*³ airbags.

*³ SRS: Supplemental Restraint System. Must be used with seatbelts.

EyeSight Driver Assist Features

Front Pre-Collision Braking System*¹
 Provides audible and visual alerts, along with braking assistance, to help avoid collisions in situations with limited visibility, such as at junctions or when pulling out of a parking space.

Intelligent Adaptive Cruise Control
 This allows the driver to set vehicle speed and distance to the car in front. It constantly monitors distance and speed then adjusts the engine, transmission and brakes accordingly to maintain speed in line with the traffic flow so you can enjoy a stress-free and smooth journey.

Autonomous Emergency Steering
 Can help avoid a collision with a vehicle, pedestrian or bicycle when Pre-Collision Braking alone may not be sufficient by controlling the steering.

Emergency Lane Keep Assist
 A stereo camera and rear corner radars monitor oncoming vehicles. If you try to change lanes without noticing that a vehicle in the adjacent lane is approaching, the system sounds a visual and audible alert and will offer gentle steering control.

Other Driver Assist Features:

- Pre-Collision Braking
- Front and Side Alert Assist
- Lane Sway And Departure Warning*²
- Lane Centering Function
- Pre-Collision Throttle Management
- Traffic Sign Recognition
- Intelligent Speed Limiter
- Manual Speed Limiter

Subaru All-Round Safety

SUBARU REAR VEHICLE DETECTION (SRVD) *²

Subaru Rear Vehicle Detection includes Blind Spot Monitoring, Lane Change Assist & Rear Cross Traffic Alert. Sensors at the rear of the vehicle alert you to vehicles in your blind spots for safer lane changes and warn you of potential collision danger when reversing out of a parking space.

For illustration purposes only. Not actual measurements.

*¹ Pre-Collision Braking System may not work in all situations. Depending on the speed difference from objects, the object's height, and other conditions, every situation may not meet the necessary conditions for EyeSight to work optimally.

LED STEERING RESPONSIVE HEADLIGHTS

Powered by LEDs, these bi-functional headlights combine low and high beams and are steering-responsive, ensuring good visibility around corners at night.

REVERSING CAMERA

When you engage reverse gear, the reversing camera displays a live colour image along with guidelines to assist in parking manoeuvres.

High Visibility

Engineered for safety, the all-new Forester prioritises improved visibility in real-world driving scenarios. Clearer sightlines help spot obstructions early, providing peace of mind on every journey.

Other Safety Features:

- Vehicle Dynamics Control + Active Torque Vectoring
- Auto Vehicle Hold
- Cabin-Protecting Layout
- Hazard Avoidance
- Reverse Automatic Braking (RAB)*²
- High Beam Assist*²
- SRS Airbags*³
- Ring-shaped Reinforcement Frame
- LED Steering Responsive Headlights (SRH)

*² The driver is always responsible for safe and attentive driving and observance of traffic regulations. Please do not depend solely on Subaru Rear Vehicle Detection, High Beam Assist or Reverse Automatic Braking for safe driving. There are limitations to the recognition features of these systems. See Owner's Manual for complete details on system operation and limitations.

*³ SRS: Supplemental Restraint System. Must be used with seatbelts.

01 STEERING RESPONSIVE HEADLIGHTS

Powered by LEDs, these bi-functional headlights combine low and high beams and are steering-responsive, ensuring good visibility around corners at night. An Adaptive Driving Beam also shapes your high beams around objects to provide optimal night time visibility, without dazzling oncoming drivers.

02 18" DIAMOND TURNED ALUMINIUM-ALLOY WHEELS*1

With a rugged appearance, aerodynamic design and high-quality finish, distinctive alloy wheels make the Crosstrek stand out.

03 LED FRONT FOG LIGHTS

Offering enhanced visibility and improved safety during night time driving, stylish LED fog lights complement the powerful look of the front face.

04 LED REAR COMBINATION LIGHTS

The rear combination, C-shaped lights give Crosstrek a distinctive look.

05 RAISED ROOF RAILS

Roof rails on the Crosstrek make light work of carrying bulk loads.

*1 Available on Touring models only.

06 ILLUMINATED USB PORTS (FRONT AND REAR)

Keep all your electronic devices fully charged with the easily-accessed USB power ports for both front and rear passengers.

07 KEYLESS ENTRY WITH PUSH-BUTTON START SYSTEM

With the key fob in your possession, you can unlock the front doors or boot by just gripping the handle and starting the engine with the push of a button.

08 DUAL-ZONE AIR CONDITIONING SYSTEM

The stylish smart cabin stays chilled with an improved, voice-operated dual-zone air conditioning system, with humidity sensors to gauge temperature, comfort and monitor efficiency.

09 10-WAY POWER ADJUSTABLE DRIVER'S SEAT (WITH LUMBAR SUPPORT)*1

Find your ideal driving position with this 10-way power adjustable driver's seat which features lumbar support for added comfort.

10 HEATED SEATS

The front seats in the Crosstrek are heated, with two temperature settings.

11 ELECTRONIC PARKING BRAKE (EPB)

One touch effortlessly engages the electronic parking brake. On acceleration, the brake automatically releases.
